Overview of Florida Real Estate Continuing Education Requirements

The Florida Real Estate Commission requires all active real estate licensees to complete continuing education courses every two years to maintain their license in good standing. For 2023, the standard requirement is a 14-hour continuing education course designed to keep real estate professionals informed of the latest legal, ethical, and practical developments in the industry. This education mandate applies to both sales associates and brokers. The objective is to reinforce knowledge of Florida real estate laws, rules, and best practices, thereby protecting consumers and enhancing professional standards. Failure to complete the required continuing education can result in license suspension or revocation.

Renewal Cycle and CE Deadlines

Real estate licensees must renew their licenses every two years, with continuing education courses completed before the renewal deadline. The 14-hour CE course typically must be finished prior to the license expiration date, which is printed on the license certificate. Licensees are advised to start their CE early to avoid last-minute issues. The renewal cycle and CE deadlines are strictly enforced by the Florida Department of Business and Professional Regulation (DBPR).

Mandatory Core and Elective Hours

The 14-hour continuing education requirement includes a 3-hour core law update course plus 11 hours of elective courses. The core law update covers recent changes in Florida real estate statutes and rules. Elective courses focus on various topics pertinent to real estate practice, allowing licensees to tailor their education to their professional interests and specialties.

Details of the 14 Hour Continuing Education Course
