Location and Accessibility of 2 Research Ct Rockville MD

Situated in the heart of Rockville, Maryland, 2 Research Ct Rockville MD enjoys a strategic location that is both convenient and highly accessible. Rockville is a major suburban city within the Washington D.C. metropolitan area, making this address attractive to businesses that require proximity to the capital. The site benefits from easy access to major highways, including I-270 and the Capital Beltway (I-495), facilitating smooth commutes for employees and visitors.

Public transportation options are also available near 2 Research Ct Rockville MD, including bus routes and the Rockville Metro Station on the Red Line, which connects directly to downtown Washington D.C. This connectivity enhances the appeal of the location for companies aiming to attract talent from across the region.

Proximity to Key Transportation Routes

2 Research Ct is located just minutes from several major transportation corridors, including:

- Interstate 270 (I-270), a primary route for commuters to and from Washington D.C.
- Interstate 495 (Capital Beltway), offering regional connectivity.

- Maryland Route 355 (Rockville Pike), a key commercial artery lined with retail and dining options.
- Rockville Metro Station providing rapid transit to the city center and surrounding suburbs.

Types of Businesses at 2 Research Ct Rockville MD

The address at 2 Research Ct Rockville MD hosts a diverse range of businesses, spanning from medical and research institutions to professional service firms and technology companies. This mix reflects the dynamic economic environment of Rockville and its surrounding areas.

Many tenants in this building operate within the healthcare and research sectors, leveraging the proximity to the National Institutes of Health (NIH) and other biomedical organizations located nearby. Additionally, consulting firms, legal offices, and IT service providers also occupy office space here, benefiting from the building's modern infrastructure and professional environment.

Medical and Research Facilities

Given Rockville's reputation as a hub for biomedical research, 2 Research Ct Rockville MD is home to several companies and institutions involved in healthcare research, clinical trials, and biotechnology. These organizations utilize the space for administrative operations, research coordination, and collaborative projects.

Professional and Technology Services

Alongside medical tenants, the building accommodates firms specializing in technology, consulting, and legal services. These companies value the location's professional setting and convenient access to clients and partners throughout the greater Washington metropolitan area.

Facilities and Amenities Available

2 Research Ct Rockville MD features a range of modern facilities tailored to meet the needs of today's businesses. The building is designed to provide a comfortable and efficient work environment, with amenities that enhance productivity and employee satisfaction.

Key facilities include secure access, ample parking, and well-maintained common areas. The building's infrastructure supports advanced telecommunications and internet connectivity, critical for research and technology companies.

Office Space and Layout Options

The property offers flexible office layouts to accommodate various tenant requirements, from small private offices to larger open-plan spaces. This versatility allows businesses of different sizes and industries to find appropriate space solutions at 2 Research Ct Rockville MD.

Additional Amenities

- On-site parking for employees and visitors
- Security services including controlled building access
- Conference and meeting rooms available for tenant use
- Proximity to dining, retail, and fitness centers in the surrounding area
