The following sections will detail the geographic location, key industries, available facilities, and community impact.

- Location and Accessibility of 200 Technology Dr Pittston PA 18640
- Business and Technology Environment
- Facilities and Office Spaces
- Local Amenities and Services
- Community and Economic Impact

Location and Accessibility of 200 Technology Dr Pittston PA 18640

Situated in the heart of Pittston, Pennsylvania, 200 Technology Dr Pittston PA 18640 benefits from strategic positioning within Luzerne County. The location offers excellent accessibility to major highways, public transportation options, and proximity to nearby cities such as Wilkes-Barre and Scranton. This connectivity is crucial for businesses that require efficient transportation for employees, clients, and logistics. Additionally, the site is positioned within a technology park area that fosters collaboration between companies and facilitates innovation.

Geographic Positioning

The address lies within a well-established industrial and commercial zone that supports various enterprises. Its proximity to Interstate 81 and Route 315 ensures quick access to regional markets as well as national

transportation routes. For companies based at 200 Technology Dr, this geographic advantage translates into reduced shipping times and easier client visits.

Transportation Infrastructure

Transportation options near 200 Technology Dr include:

- Major highways (I-81, Route 315)
- Local bus transit services
- Nearby airports, including Wilkes-Barre/Scranton International Airport
- Rail freight services accessible within Luzerne County

This infrastructure supports both commuter traffic and freight movement, making the address viable for a diverse array of technology and manufacturing firms.

Business and Technology Environment

200 Technology Dr Pittston PA 18640 serves as a focal point for technology-driven enterprises and innovative business ventures. The area hosts several companies specializing in software development, IT services, engineering, and advanced manufacturing. This concentration of technology businesses creates a dynamic ecosystem conducive to networking, partnerships, and growth.

Key Industries and Companies

The technology park around 200 Technology Dr includes firms engaged in:

- Information technology and software solutions
- Telecommunications and networking
- Research and development in engineering sectors
- Advanced manufacturing and automation

These industries benefit from shared resources and expertise available in the location, further enhanced by local educational institutions producing skilled graduates.

Innovation and Collaboration

The collaborative environment at 200 Technology Dr encourages innovation through various initiatives such as technology incubators, business accelerators, and networking events. Companies here often partner with academic institutions and government agencies to foster research and development projects, resulting in technological advancements and economic development.

Facilities and Office Spaces

The infrastructure at 200 Technology Dr Pittston PA 18640 is designed to meet the needs of modern technology companies. The facilities include state-of-the-art office buildings, manufacturing spaces, and conference centers equipped with advanced technological amenities. These spaces are customizable to fit the requirements of startups as well as established corporations.

Office and Industrial Spaces
