- Research and Scholarly Activities
- Resident Life and Benefits

Program Overview and Structure

The Beaumont Farmington Hills Family Medicine Residency is structured to provide a balanced and well-rounded educational experience. The residency spans three years, adhering to the Accreditation Council for Graduate Medical Education (ACGME) standards, and focuses on comprehensive family medicine practice. The program integrates outpatient clinics, inpatient care, emergency medicine, and specialty rotations to ensure residents develop proficiency across multiple domains.

Program Mission and Goals

The mission of the Beaumont Farmington Hills Family Medicine Residency is to train competent, compassionate, and community-oriented family physicians who are prepared to meet the healthcare needs of diverse populations. The program emphasizes holistic patient care, preventive medicine, and chronic disease management. Residents are trained to become leaders in their communities and advocates for patient health.

Residency Structure

The residency curriculum is divided into core rotations and elective opportunities, with a typical weekly schedule balancing clinical duties, didactic sessions, and scholarly activities. The program fosters progressive responsibility, allowing residents to take on more complex cases and leadership roles as they advance through the years.

- Year 1: Focus on foundational clinical skills, including inpatient medicine, pediatrics, and obstetrics.
- Year 2: Increased outpatient exposure, specialty rotations, and community health experiences.
- Year 3: Emphasis on leadership, advanced clinical practice, and elective rotations tailored to resident interests.

Curriculum and Clinical Training

The curriculum of the Beaumont Farmington Hills Family Medicine Residency is comprehensive and evidence-based, designed to cover a wide range of medical knowledge and clinical skills necessary for family medicine practitioners. Residents gain experience in diverse settings, including hospital wards, outpatient clinics, emergency departments, and long-term care facilities.

Core Clinical Rotations

Residents rotate through essential clinical areas such as internal medicine, pediatrics, obstetrics and gynecology, emergency medicine, psychiatry, and geriatrics. These rotations ensure that residents develop expertise in managing acute and chronic conditions across all age groups.

Outpatient Family Medicine Clinic

A significant component of the residency is the longitudinal outpatient clinic, where residents follow a panel of patients throughout their training. This continuity clinic provides opportunities to manage chronic diseases, preventive care, and health maintenance in a real-world setting.

Procedural Training

The program offers hands-on training in a variety of family medicine procedures, including but not limited to:

- Joint injections
- Skin biopsies

- Incision and drainage
- Basic obstetric procedures
- Point-of-care ultrasound

Faculty and Mentorship

The Beaumont Farmington Hills Family Medicine Residency boasts a team of experienced, board-certified faculty members dedicated to resident education and professional development. Faculty members are actively involved in clinical practice, teaching, and research, providing residents with expert guidance and support.

Faculty Expertise

Faculty expertise spans various subspecialties within family medicine, including sports medicine, geriatrics, behavioral health, and maternal-child health. This diversity allows residents to gain insights into specialized areas and tailor their training according to their career goals.

Mentorship and Evaluation

Each resident is paired with faculty mentors who provide personalized advice, career counseling, and feedback throughout the residency. Regular evaluations and performance assessments help track progress and identify opportunities for growth.

Research and Scholarly Activities

Research is an integral part of the Beaumont Farmington Hills Family Medicine Residency, encouraging residents to engage in scholarly activities that advance medical knowledge and improve patient care. The program supports resident involvement in clinical research, quality improvement projects, and community health initiatives.

Research Opportunities

Residents are encouraged to participate in research projects under faculty supervision, which may include:

- Clinical trials
- Health services research
- Preventive medicine studies

- Educational research related to residency training

Presentations and Publications

The program promotes dissemination of research findings through presentations at regional and national conferences as well as publication in peer-reviewed journals. This scholarly engagement enhances residents' academic profiles and prepares them for future academic or clinical leadership roles.

Resident Life and Benefits

Life as a resident at Beaumont Farmington Hills Family Medicine Residency is supported by a range of benefits and resources designed to promote well-being, professional growth, and work-life balance. The program fosters a collegial and inclusive environment where residents can thrive personally and professionally.

Work Environment and Culture

The residency program emphasizes a supportive culture that values teamwork, diversity, and resident wellness. Regular social events, wellness activities, and peer support groups contribute to a positive residency experience.

Benefits and Resources

Residents receive competitive compensation and comprehensive benefits, including health insurance, malpractice coverage, paid time off, and access to continuing medical education funds. Additionally, the program provides resources such as simulation labs, electronic medical records training, and access to a broad network of healthcare professionals.

- Competitive salary and health benefits
- Professional development funds
- Paid vacation and sick leave
- Wellness and mental health support
- Access to state-of-the-art clinical facilities
