This mission guides all programs and services offered by the society, from intake and medical care to outreach and public education efforts.

Facilities and Services

The humane society operates a modern shelter facility equipped to house dogs, cats, and small animals in safe and comfortable conditions. Veterinary care, including spaying and neutering, vaccinations, and treatment for injuries or illnesses, is provided on site or through partnerships with local veterinarians. Additionally, the society offers lost and found services and works closely with animal control officers to manage stray animal populations.

Adoption Services and Process

One of the primary functions of the Bedford Humane Society PA is to find loving, permanent homes for animals in its care. Adoption services are designed to match pets with suitable families, ensuring a positive and lasting relationship for both.

Adoption Procedures

The adoption process is straightforward and involves several steps to ensure the well-being of the animals and the suitability of the adopters. Interested individuals or families can visit the shelter to meet available pets or view them online. An adoption application must be completed, which includes questions about lifestyle, experience with pets, and housing conditions. Following application review, a meet-and-greet is arranged, and if approved, the adopter completes the adoption agreement and pays a fee that helps cover medical and care costs.
