The word "before" often functions as a preposition, which means it relates a noun or pronoun to another element in the sentence, typically indicating time or place. When "before" is used as a preposition, it usually introduces a prepositional phrase that provides temporal or spatial context.

## Definition and Usage

As a preposition, "before" shows that one event or thing occurs earlier than another. It is commonly followed by a noun, noun phrase, or pronoun to specify the point in time or the entity that precedes another.

## Examples of "Before" as a Preposition

- She arrived **before** the meeting started.

- He stood **before** the audience confidently.
- The documents were signed **before** noon.

In these examples, "before" clearly indicates the time preceding another event or the spatial position in relation to something else.

## "Before" Used as a Conjunction

Besides its prepositional use, "before" frequently serves as a subordinating conjunction. In this role, it connects two clauses, indicating that one action happens earlier than another.

## Conjunction Functions

When "before" functions as a conjunction, it introduces a dependent clause that provides temporal information about the time frame of the main clause. This usage is vital for expressing sequences of events or conditions.

## Examples of "Before" as a Conjunction

- Finish your homework **before** you go outside to play.
- She called me **before** she left the office.

Here, "before" links two actions, emphasizing the chronological order between them.

## The Role of "Before" as an Adverb

Occasionally, "before" functions as an adverb, modifying verbs and indicating that an action took place earlier in time relative to the present or another event. This use is less common but still important in grammar.

## Adverbial Usage Explained

As an adverb, "before" stands alone without a following noun or clause, often appearing at the beginning or end of a sentence. It conveys the notion of prior occurrence without specifying an explicit reference point.

## Examples of "Before" as an Adverb

- I have seen that movie **before**.
- They arrived at the venue an hour **before**.
- Have you met him **before**?

In these instances, "before" modifies the verb by indicating that the event happened at an earlier time.
