## **Overview of Beth Israel Lahey Health Primary Care 3525 Washington**

Beth Israel Lahey Health Primary Care 3525 Washington is part of the larger Beth Israel Lahey Health network, known for its commitment to high standards in medical care. This primary care facility focuses on building long-term relationships with patients to support their overall health and well-being. The practice is designed to address a wide range of medical needs, from routine check-ups to complex health issues requiring ongoing management. Emphasizing a holistic approach, the center integrates the latest medical practices with compassionate care. Patients at this location benefit from coordinated care that connects them to specialists and other resources within the Beth Israel Lahey Health system.

## **Services Offered**

The scope of services available at Beth Israel Lahey Health Primary Care 3525 Washington covers

comprehensive primary care needs for patients of all ages. The practice offers preventive care, chronic disease management, diagnostic testing, and health education. This range of services ensures that patients can receive coordinated care for both acute and long-term health conditions.

## **Preventive Care**

Preventive care is a cornerstone of the services provided, focusing on early detection and health maintenance. This includes routine physical exams, immunizations, screenings, and lifestyle counseling. By emphasizing prevention, the practice aims to reduce the risk of serious illnesses and promote overall wellness.

## **Chronic Disease Management**

Managing chronic conditions such as diabetes, hypertension, asthma, and heart disease is a critical function of this primary care facility. Personalized treatment plans are developed in collaboration with patients to optimize disease control and improve quality of life.

## **Diagnostic and Laboratory Services**

On-site diagnostic services and laboratory testing enable timely and accurate assessments of patient health. These capabilities facilitate prompt diagnosis and treatment adjustments without the need for external referrals in many cases.

## **Health Education and Counseling**

Patient education is integrated into every visit, empowering individuals to make informed decisions about their health. Counseling on nutrition, exercise, smoking cessation, and stress management are routinely provided to support healthy lifestyle changes.

## **Healthcare Providers and Staff**

The team at Beth Israel Lahey Health Primary Care 3525 Washington is composed of board-certified physicians, nurse practitioners, physician assistants, and support staff dedicated to delivering exceptional care. All providers are experienced in family medicine, internal medicine, and pediatrics, allowing the practice to serve a diverse patient population.

## **Physicians**

The physicians at this location bring expertise in diagnosing and treating a wide array of health conditions. They prioritize patient communication and shared decision-making to ensure treatments align with individual preferences and needs.

## **Nurse Practitioners and Physician Assistants**

Advanced practice providers play a vital role in expanding access to care and managing routine health concerns. Their collaborative approach with physicians enhances continuity and efficiency in patient care delivery.

## **Support Staff**

Efficient and courteous support staff manage scheduling, patient records, and insurance coordination, contributing to a seamless healthcare experience. Their role is essential in maintaining an organized and patient-friendly environment.

## **Patient Experience and Care Approach**

Beth Israel Lahey Health Primary Care 3525 Washington prioritizes a patient-centered approach that fosters trust and open communication. The practice encourages patients to actively participate in their healthcare decisions, resulting in tailored treatment plans that reflect individual health goals.

## **Personalized Care**

Each patient receives a customized care plan developed after comprehensive evaluations and ongoing monitoring. This personalized approach ensures that interventions are relevant and effective over time.

## **Coordinated Care Model**

Collaboration across specialties and healthcare services is facilitated to provide integrated care. Patients have access to referrals within the Beth Israel Lahey Health network, ensuring continuity and comprehensive management of complex conditions.

## **Accessibility and Convenience**

Efforts to enhance patient convenience include same-day appointments, extended office hours, and telehealth options. These features accommodate diverse schedules and improve access to primary care services.

## **Location and Accessibility**

The Beth Israel Lahey Health Primary Care center at 3525 Washington is strategically situated to serve patients in the surrounding neighborhoods. The facility is easily accessible by car and public transportation, making it a convenient choice for local residents.

## **Parking and Transportation**

Ample parking is available on-site for patients arriving by vehicle. Additionally, the location is served by several public transit routes, providing alternative transportation options.

## **Facility Amenities**

The clinic features a modern, welcoming environment equipped with advanced medical technology and comfortable patient areas. Accessibility accommodations are in place to support patients with disabilities.

## **Insurance and Appointment Information**

Beth Israel Lahey Health Primary Care 3525 Washington accepts a broad range of insurance plans, including major private insurers and government programs. This inclusivity helps reduce financial barriers to receiving quality healthcare.

### **Insurance Plans Accepted**

- Medicare and Medicaid
