Overview of Creighton School of Medicine Clubs

The Creighton School of Medicine fosters a vibrant community through its extensive range of student clubs and organizations. These clubs are designed to complement the rigorous medical curriculum by providing avenues for personal growth, skill-building, and peer interaction. They support students in exploring medical specialties, engaging in research, and participating in wellness and social activities. The clubs serve as platforms for collaboration among students from different class years, promoting mentorship and a sense of belonging within the medical school.

Participation in these clubs enhances students' medical education by offering practical experiences beyond the classroom. Additionally, involvement in clubs is often seen as a valuable component in residency applications, demonstrating leadership, initiative, and commitment to the medical community.

Types of Clubs and Organizations

Creighton School of Medicine clubs span a broad spectrum of interests and professional focuses. These organizations can be broadly categorized into specialty interest groups, service and outreach clubs, cultural and diversity organizations, and wellness and social

clubs. Each category provides unique opportunities tailored to different aspects of medical student life.

Specialty Interest Groups

Specialty interest groups allow students to explore specific fields of medicine through guest lectures, hands-on workshops, and networking events with practicing physicians. These groups help students deepen their understanding of various specialties and make informed decisions about their future careers.

- Internal Medicine Interest Group
- Surgery Club
- Pediatrics Club
- Emergency Medicine Interest Group
- Psychiatry Club
- OB/GYN Club

Service and Outreach Clubs

Service-oriented clubs focus on giving back to the community and addressing healthcare disparities. These organizations organize medical missions, health screenings, and educational programs for underserved populations. They provide students with the opportunity to apply their medical knowledge in real-world settings while fostering empathy and social responsibility.

- Global Health Club
- Street Medicine Outreach
- Medical Spanish Club
- Health Education and Awareness Team (HEAT)

Cultural and Diversity Organizations

These clubs celebrate diversity and promote inclusivity within the medical school. They provide support networks for students from underrepresented backgrounds and host cultural events that enrich the campus community. Participation in these groups enhances cultural competence and prepares students to deliver equitable care to diverse patient

populations.

- Latino Medical Student Association
- Black Medical Student Association
- Asian Pacific American Medical Student Association
- Women in Medicine

Wellness and Social Clubs

Recognizing the stresses of medical education, Creighton School of Medicine also offers clubs focused on student wellness and social engagement. These clubs organize recreational activities, mindfulness sessions, and social gatherings to promote mental health and build camaraderie among students.

- Student Wellness Committee
- Yoga and Meditation Club
- Medical Student Sports Club
- Book Club

Leadership and Professional Development Opportunities

Leadership roles within Creighton School of Medicine clubs provide students with valuable experience in organization management, event planning, and teamwork. Serving as officers or committee members helps develop skills that are essential for future physicians, such as communication, collaboration, and problem-solving.

Moreover, many clubs invite guest speakers, organize workshops, and offer mentorship programs that contribute to professional growth. These opportunities enable students to build their resumes, develop networking connections, and gain insights into various medical careers.

Officer Positions and Responsibilities

Common leadership roles within clubs include president, vice president, secretary, treasurer, and event coordinator. Responsibilities often involve coordinating meetings, managing budgets, organizing events, and facilitating communication among members.

Workshops and Speaker Events

Clubs frequently host educational sessions featuring healthcare professionals, researchers, and alumni. These events provide exposure to cutting-edge medical topics, residency application advice, and career guidance.

Community Service and Outreach Initiatives

Community engagement is a cornerstone of the Creighton School of Medicine experience. Many clubs actively participate in outreach programs that address health inequities and provide direct care to vulnerable populations. Through these initiatives, students develop cultural sensitivity, clinical skills, and a commitment to service.

Medical Missions and Service Trips

Some clubs organize local and international medical missions where students assist in delivering healthcare services in resource-limited settings. These trips often involve collaboration with non-profit organizations and offer immersive learning experiences.

Local Health Education Programs

Outreach clubs conduct health fairs, vaccination drives, and educational workshops in the community to promote preventive care and health literacy. These programs foster partnerships between the medical school and the surrounding community.

How to Get Involved in Creighton School of Medicine Clubs

Joining a club at Creighton School of Medicine is straightforward and encouraged throughout the academic year. Students can explore club options during orientation events, club fairs, or by contacting club representatives directly. Active participation is a great way to enhance the medical school experience and build lasting relationships.

Membership and Participation

Most clubs welcome members from all class years, and some may have specific requirements or interests. Membership typically involves attending regular meetings, volunteering for events, and engaging in club activities.

Starting a New Club

Students with unique interests not represented by existing clubs have the opportunity to

propose and establish new organizations. This process usually involves submitting a charter, recruiting members, and gaining approval from the student affairs office.

Utilizing Campus Resources

The Office of Student Affairs and the Student Activities Office provide support and resources for club management, event planning, and funding. Students are encouraged to utilize these services to maximize their club involvement experience.
