Program Overview

The Creighton University Phoenix Internal Medicine Residency is a three-year program designed to develop skilled internists capable of delivering high-quality patient care. The residency aims to foster a strong foundation in clinical medicine while encouraging lifelong learning and professional growth. Residents are exposed to a wide variety of medical conditions and complex cases, enhancing their diagnostic and management skills. The program emphasizes a balanced approach to inpatient and outpatient care, ensuring comprehensive training in all facets of internal medicine.

Program Goals and Objectives

The primary goals of the Creighton University Phoenix Internal Medicine Residency include training residents to:

- Provide evidence-based, compassionate care to diverse patient populations.
- Develop proficiency in diagnostic reasoning and clinical decision-making.

- Engage in scholarly activities and apply research findings to clinical practice.
- Demonstrate professionalism, ethical practice, and effective communication.
- Prepare for board certification in internal medicine and potential subspecialty fellowships.

Program Structure

The residency consists of three years of progressive clinical responsibility. Each year builds upon the last, with increasing autonomy and complexity of cases. The curriculum includes core rotations, elective opportunities, and scholarly projects. Residents participate in didactic sessions, case conferences, and simulation training to enhance their knowledge and skills.

Clinical Training and Rotations

Clinical training is a cornerstone of the Creighton University Phoenix Internal Medicine Residency. Residents rotate through various inpatient and outpatient settings, gaining exposure to a broad spectrum of diseases and patient demographics. The program collaborates with multiple hospitals and clinics in the Phoenix metropolitan area, providing diverse clinical experiences.

Inpatient Rotations

Inpatient rotations focus on managing acute and chronic medical conditions in hospitalized patients. Residents work alongside multidisciplinary teams, including attending physicians, nurses, pharmacists, and specialists. Key inpatient rotations include:

- General Medicine Wards
- Intensive Care Units (Medical ICU, Coronary Care Unit)
- Cardiology
- Infectious Disease
- Hematology and Oncology

Outpatient Rotations

Outpatient experiences allow residents to provide longitudinal care, emphasizing

preventive medicine and chronic disease management. Clinics affiliated with Creighton University offer opportunities in primary care, endocrinology, rheumatology, and other subspecialties. Residents develop skills in patient counseling, health maintenance, and coordination of care.

Procedural Training

The residency ensures competence in essential internal medicine procedures such as central line placement, lumbar puncture, thoracentesis, paracentesis, and joint aspiration. Supervised hands-on training enhances residents' confidence and technical abilities.

Research and Academic Opportunities

The Creighton University Phoenix Internal Medicine Residency encourages scholarly activity as an integral part of training. Residents have access to research mentors and institutional resources to pursue clinical or translational research projects. Participation in research fosters critical thinking and contributes to evidence-based practice.

Research Mentorship and Support

Faculty members with diverse research interests guide residents through study design, data collection, and manuscript preparation. The program supports resident attendance at regional and national conferences to present their work and network with other professionals.

Academic Curriculum

Educational components include regular lectures, journal clubs, morbidity and mortality conferences, and workshops focused on medical knowledge and practice improvement. These activities complement clinical training and enhance residents' academic development.

Faculty and Mentorship

Experienced and dedicated faculty members form the backbone of the Creighton University Phoenix Internal Medicine Residency. Faculty physicians are committed to resident education, providing personalized mentorship and fostering an environment of continuous learning.

Faculty Expertise

The faculty includes specialists across internal medicine subspecialties, ensuring comprehensive exposure and expert guidance. Their clinical and research expertise

enriches the training experience and supports residents' career aspirations.

Mentorship Programs

Structured mentorship programs pair residents with faculty mentors who assist with career planning, research endeavors, and professional development. This relationship supports residents throughout their training and beyond, facilitating successful transitions to independent practice or fellowship.

Application Process and Requirements

The application process for the Creighton University Phoenix Internal Medicine Residency is competitive and follows the guidelines established by the Electronic Residency Application Service (ERAS) and the National Resident Matching Program (NRMP).

Eligibility Criteria

Applicants must have graduated from an accredited medical school and meet the requirements for medical licensure. International medical graduates are considered, provided they have appropriate certification and documentation.

Application Components

Applicants are required to submit:

- Curriculum Vitae (CV)
- Personal statement highlighting interest in internal medicine and program fit
- Letters of recommendation from clinical faculty
- USMLE or COMLEX scores
- Medical school transcripts

Interview Process

Selected candidates are invited for interviews to assess their clinical knowledge, communication skills, and alignment with the program's values. The interview experience also provides applicants with insight into the residency environment and culture.

Frequently Asked Questions

What is the focus of the Creighton University Phoenix Internal Medicine Residency program?

The Creighton University Phoenix Internal Medicine Residency program focuses on providing comprehensive training in internal medicine with an emphasis on clinical skills, research, and patient-centered care in a diverse urban setting.

How long is the Internal Medicine Residency at Creighton University Phoenix?

The Internal Medicine Residency at Creighton University Phoenix typically lasts for three years, covering a broad spectrum of internal medicine disciplines and subspecialties.

What are the key benefits of training at Creighton University's Phoenix Internal Medicine Residency?

Key benefits include exposure to a diverse patient population, strong mentorship, opportunities for research and academic growth, and a supportive learning environment that prepares residents for various career paths in internal medicine.

Does Creighton University Phoenix Internal Medicine Residency offer fellowship opportunities?

While the residency itself is focused on internal medicine training, graduates from Creighton University Phoenix Internal Medicine Residency often pursue fellowships in various subspecialties such as cardiology, gastroenterology, and infectious diseases either at Creighton or other institutions.
