Overview of Forum Parkway Health and Rehab

Forum Parkway Health and Rehab is a state-of-the-art healthcare facility dedicated to delivering exceptional rehabilitation and skilled nursing services. Located strategically to serve a broad community, the center provides an array of medical and therapeutic solutions designed to assist patients in regaining independence and improving quality of life. The facility operates with a focus on individualized care plans, ensuring treatment protocols are tailored to meet each patient's unique needs. As a leader in post-acute care, Forum Parkway Health and Rehab integrates evidence-based practices and compassionate service to achieve optimal health results.

Mission and Vision

The mission of Forum Parkway Health and Rehab is to promote healing and recovery through comprehensive, patient-centered care. The vision emphasizes innovation, excellence, and collaboration within the rehabilitation field to set new standards for health outcomes. This commitment drives continuous improvement and fosters a healing environment where patients can thrive.

Accreditations and Certifications

Forum Parkway Health and Rehab maintains numerous accreditations from recognized healthcare organizations, which validate the quality and safety of its services. These certifications reflect stringent adherence to healthcare regulations and best practices, assuring patients and families of reliable and effective care delivery.

Comprehensive Rehabilitation Services

Forum Parkway Health and Rehab offers a wide range of rehabilitation services designed to address diverse patient needs. These services encompass physical, occupational, and speech therapy, as well as specialized programs for neurological, orthopedic, and cardiac rehabilitation. The facility's rehabilitative approach focuses on restoring functional abilities through customized treatment plans developed by skilled therapists.

Physical Therapy

The physical therapy program at Forum Parkway Health and Rehab emphasizes mobility restoration, strength enhancement, and pain management. Patients recovering from surgeries, injuries, or chronic conditions benefit from tailored exercise regimens and manual therapies intended to maximize physical function.

Occupational Therapy

Occupational therapy services assist patients in regaining the skills necessary for daily living and work-related activities. Therapists provide adaptive strategies and therapeutic exercises to improve fine motor skills, coordination, and cognitive function, facilitating greater independence.

Speech and Language Therapy

For patients experiencing communication or swallowing difficulties, Forum Parkway Health and Rehab

offers speech and language therapy. This service supports recovery from stroke, brain injury, or other neurological impairments, utilizing personalized interventions to improve speech clarity and swallowing safety.

Specialized Rehabilitation Programs

The facility also provides specialized programs targeting specific conditions:

- Neurological rehabilitation for stroke and traumatic brain injury patients
- Orthopedic rehabilitation following joint replacement or fractures
- Cardiac rehabilitation to enhance cardiovascular health post-event
- Pain management programs addressing chronic and acute pain syndromes

Patient Care and Support Programs

Forum Parkway Health and Rehab prioritizes comprehensive patient care that extends beyond clinical treatment. The center emphasizes emotional support, education, and family involvement to create a holistic healing experience. Patient care programs are designed to foster a nurturing environment conducive to recovery and wellness.

Personalized Care Planning

Each patient receives a personalized care plan developed through multidisciplinary assessment. This approach ensures that treatment goals align with patient preferences, medical needs, and functional capabilities, enabling targeted interventions that promote efficient recovery.

Family and Caregiver Support

The facility recognizes the critical role of families and caregivers in the rehabilitation process. Support programs include educational workshops, counseling services, and regular communication to empower caregivers and ease patient transitions from facility to home.

Patient Education and Wellness

Educational initiatives at Forum Parkway Health and Rehab focus on disease management, preventive care, and healthy lifestyle promotion. Wellness programs encourage patients to maintain physical activity, proper nutrition, and mental well-being as integral components of recovery.

Expert Staff and Multidisciplinary Team

The success of Forum Parkway Health and Rehab is underpinned by its highly skilled and dedicated team of healthcare professionals. The facility employs a multidisciplinary approach, bringing together specialists from various fields to collaborate on patient care.

Physicians and Medical Specialists

Board-certified physicians oversee medical management, ensuring that rehabilitation protocols align with overall health objectives. Specialists in geriatrics, orthopedics, neurology, and cardiology contribute their expertise to complex cases.

Therapists and Nursing Staff

Licensed physical, occupational, and speech therapists implement individualized treatment plans, while registered nurses provide ongoing care and monitoring. The nursing staff plays a vital role in medication administration, wound care, and patient safety.

Support and Auxiliary Staff

Additional team members include social workers, dietitians, and recreational therapists who address the psychosocial and nutritional aspects of recovery. Their involvement enhances patient engagement and supports holistic rehabilitation.

Facility Amenities and Technology

Forum Parkway Health and Rehab is equipped with modern amenities and advanced technology designed to facilitate effective rehabilitation and patient comfort. The facility's infrastructure supports diverse therapeutic modalities and fosters a healing atmosphere.

Therapeutic Equipment

The rehabilitation center utilizes a wide range of therapeutic equipment, including:

- Advanced mobility aids and exercise machines
- Hydrotherapy pools for low-impact therapy
- Electrical stimulation and ultrasound devices
- Assistive technology for communication and cognitive therapy

Comfort and Safety Features

Patient rooms and common areas are designed with accessibility and safety in mind, featuring handrails, non-slip flooring, and emergency response systems. Comfortable accommodations contribute to patient well-being during extended stays.

Community Engagement and Patient Resources

Forum Parkway Health and Rehab actively engages with the local community to promote health awareness and provide support resources. The facility offers various programs and initiatives aimed at education, prevention, and post-discharge support.

Outreach and Educational Programs

Community outreach efforts include health screenings, informational seminars, and wellness fairs. These programs aim to educate the public on injury prevention, chronic disease management, and the benefits of rehabilitation services.

Post-Discharge Support

To ensure continuity of care, Forum Parkway Health and Rehab provides post-discharge follow-up services, including home health referrals and outpatient therapy options. These resources assist patients in maintaining progress and preventing readmission.

Patient Advocacy and Feedback

The facility encourages patient feedback and involvement through advisory councils and satisfaction surveys. This input helps guide service improvements and ensures that patient needs remain central to care delivery.
