- Comprehensive Women's Health Services
- Experienced Medical Team
- Patient-Centered Care Approach
- State-of-the-Art Facilities
- Common Conditions Treated
- Innovative Treatments and Procedures

Comprehensive Women's Health Services

Franciscan Women's Health Associates at St. Clare offers an extensive spectrum of healthcare services designed specifically for women. Their approach encompasses preventive care, routine screenings, and specialized treatments aimed at maintaining and improving women's health. Services include obstetrics for pregnancy and childbirth, gynecology for reproductive health, and menopause management. Patients can access routine Pap smears, mammography referrals, and contraceptive counseling among other essential health services. The goal is to provide a full continuum of care that supports women from adolescence through post-menopause.

Obstetric Care

The practice provides comprehensive obstetric care, including prenatal visits, labor and delivery support, and postpartum follow-up. The obstetricians work closely with patients to monitor fetal development and maternal health, ensuring a safe and healthy pregnancy. High-risk pregnancy management is also available for patients requiring specialized attention.

Gynecological Services

Gynecological care at Franciscan Women's Health Associates at St. Clare addresses a range of concerns from routine exams to complex conditions. Services include annual well-woman exams, Pap tests, pelvic ultrasounds, treatment for infections, and management of menstrual disorders. The practice also offers counseling on family planning and fertility options.

Experienced Medical Team

The team at Franciscan Women's Health Associates at St. Clare consists of board-certified obstetricians and gynecologists dedicated to delivering evidence-based care. Their collective expertise spans general women's health, high-risk obstetrics, minimally invasive gynecologic surgery, and hormonal therapies. The providers maintain ongoing education to stay current with the latest advancements in women's healthcare.

Board-Certified Physicians

Each physician at the practice holds board certification in obstetrics and gynecology, reflecting their rigorous training and commitment to professional excellence. Their credentials ensure patients receive care consistent with national standards and best practices.

Support Staff and Specialists

In addition to physicians, the practice employs experienced nurse practitioners, physician assistants, and nursing staff who support patient care and education. Collaboration with specialists in maternal-fetal medicine, reproductive endocrinology, and oncology is facilitated when advanced care is needed.

Patient-Centered Care Approach

Franciscan Women's Health Associates at St. Clare prioritizes a patient-centered care philosophy, emphasizing open communication, respect, and individualized treatment plans. The practice fosters a welcoming environment where patients feel comfortable discussing their health concerns and participating actively in decision-making.

Personalized Treatment Plans

Every patient receives a customized care plan developed after thorough evaluation and discussion. This approach ensures that treatments align with the patient's lifestyle, preferences, and health goals.

Patient Education and Support

Education is a cornerstone of the practice's approach. Patients are provided with detailed information about their conditions, treatment options, and preventive measures to empower them in managing their health effectively.

State-of-the-Art Facilities

The facilities at Franciscan Women's Health Associates at St. Clare are equipped with the latest medical technology to support accurate diagnostics and effective treatments. The modern clinical environment is designed to enhance patient comfort and streamline care delivery.

Advanced Diagnostic Tools

The practice utilizes high-resolution ultrasound machines, digital colposcopy, and in-office laboratory services to expedite diagnosis and treatment. These tools enable early detection of health issues and timely intervention.

Comfortable Clinical Environment

Patient comfort is a priority, with thoughtfully designed examination rooms and waiting areas that create a calming atmosphere. Accessibility and privacy are also ensured throughout the facility.

Common Conditions Treated

Franciscan Women's Health Associates at St. Clare addresses a broad range of gynecologic and obstetric conditions. Their expertise covers routine health maintenance as well as complex medical issues.

- Menstrual irregularities and disorders
- Pelvic pain and endometriosis
- Fibroids and ovarian cysts
- Urinary incontinence and pelvic floor disorders
- High-risk pregnancies
- Menopause and hormonal imbalances
- Sexually transmitted infections (STIs)

Menstrual and Hormonal Disorders

The practice provides diagnosis and management of conditions such as heavy bleeding, irregular cycles, and premenstrual syndrome (PMS). Hormonal therapies are tailored to relieve symptoms and improve quality of life.

Reproductive Health Concerns

Issues related to fertility, contraception, and sexually transmitted infections are addressed with comprehensive evaluation and treatment options to support reproductive wellness.

Innovative Treatments and Procedures

To optimize patient outcomes, Franciscan Women's Health Associates at St. Clare integrates innovative treatments and minimally invasive procedures into their care protocols. These advancements reduce recovery times and enhance patient safety.

Minimally Invasive Surgery

The practice offers laparoscopic and hysteroscopic surgeries for conditions such as fibroids, endometriosis, and abnormal uterine bleeding. These techniques involve smaller incisions, less pain, and quicker recovery compared to traditional surgery.

Advanced Obstetric Interventions

For high-risk pregnancies, the team employs cutting-edge monitoring technologies and treatment strategies to manage complications and support maternal-fetal health.

Hormone Replacement Therapy (HRT)

Customized hormone replacement therapy is available for women experiencing menopausal symptoms, aiming to restore hormonal balance and improve overall well-being.
