How to Enable Cheats in The Sims 4

Before using any max skill cheat sims 4 commands, it is essential to enable cheats in the game. Cheats are disabled by default to maintain the integrity of the gameplay experience. Enabling cheats allows players to access a wide range of commands, including those that boost skills instantly.

Accessing the Cheat Console

To start, players need to open the cheat console by pressing a combination of keys based on their platform. On PC and Mac, press *Ctrl + Shift + C* to open the cheat input box at the top of the screen. On consoles such as PlayStation or Xbox, the method varies but generally involves pressing all four shoulder buttons simultaneously.

Activating Cheats Mode

Once the cheat console is open, type **testingcheats true** or **testingcheats on** and press Enter. This command activates the cheat mode, enabling all subsequent cheats, including skill maxing commands. A confirmation message will appear to indicate that cheats are active.

Using Max Skill Cheat Sims 4

After enabling cheats, the max skill cheat sims 4 can be used to instantly set a Sim's skill to the highest level, which is typically level 10 or 5 depending on the skill. This cheat accelerates gameplay by bypassing the need for repetitive actions to improve skills.

Basic Max Skill Command Format

The general format for maxing a skill is:

- **stats.set_skill_level [skill name] [level]**

For example, to max the cooking skill, the command would be:

```
stats.set_skill_level Major_HomestyleCooking 10
```

Setting the level to 10 instantly maxes the skill.

Using the Max All Skills Cheat

While there is no universal built-in command to max all skills at once, players can use mods or execute individual commands for each skill to reach maximum level. This method allows greater control over which skills to max based on gameplay preferences.
