Program Overview and Mission

The Mayo Jacksonville Family Medicine Residency is a three-year postgraduate training program accredited by the Accreditation Council for Graduate Medical Education (ACGME). Its mission is to educate and train family physicians who provide high-quality, comprehensive healthcare with an emphasis on preventive medicine, chronic disease management, and health promotion. The program is committed to producing physicians equipped to serve diverse patient populations across various clinical settings.

Program Goals

The residency aims to develop skills in patient communication, clinical decision-making, and interdisciplinary collaboration. Graduates are expected to demonstrate proficiency in outpatient, inpatient, emergency, and procedural family medicine care. The curriculum is designed to foster lifelong learning and adaptability in a constantly evolving healthcare

environment.

Community and Patient Population

Situated in Jacksonville, Florida, the residency serves a broad spectrum of patients, including urban, suburban, and rural communities. This diversity exposes residents to a wide range of medical conditions and cultural backgrounds, enriching their clinical experience and cultural competence.

Curriculum and Clinical Training

The Mayo Jacksonville Family Medicine Residency offers a comprehensive curriculum that balances didactic instruction with hands-on clinical experience. Residents rotate through multiple specialties and settings to gain broad exposure across the continuum of care.

Core Rotations

Residents complete core rotations in:

- Primary Care/Internal Medicine
- Pediatrics
- Obstetrics and Gynecology
- Emergency Medicine
- Inpatient Family Medicine
- Behavioral Health
- Surgical Subspecialties

These rotations provide essential clinical knowledge and procedural skills necessary for family medicine practice.

Continuity Clinic

Residents maintain a longitudinal continuity clinic throughout their training, managing their own patient panel under faculty supervision. This experience fosters long-term patient relationships and continuity of care, critical components of family medicine.

Procedural Training

The program emphasizes competency in common family medicine procedures such as joint injections, skin biopsies, and obstetrical deliveries. Simulation labs and supervised clinical practice ensure residents develop confidence and proficiency.

Faculty and Mentorship

The Mayo Jacksonville Family Medicine Residency boasts a dedicated faculty team consisting of experienced family physicians, subspecialists, and allied health professionals. Faculty members are committed to resident education, mentorship, and career development.

Faculty Expertise

Faculty members bring expertise in various family medicine domains, including geriatrics, sports medicine, women's health, and behavioral health. This diversity enriches the educational experience and allows residents to tailor their training to individual interests.

Mentorship Programs

Residents benefit from structured mentorship programs that provide guidance on clinical skills, research opportunities, and career planning. Regular feedback and professional development sessions support resident growth and well-being.

Research and Scholarly Activity

Research is a vital component of the Mayo Jacksonville Family Medicine Residency, encouraging residents to engage in scholarly activities that advance clinical knowledge and improve patient care.

Research Opportunities

Residents have access to Mayo Clinic's extensive research resources, including biostatistics support, research coordinators, and collaborative projects across specialties. Areas of research include preventive medicine, health disparities, clinical trials, and quality improvement initiatives.

Scholarly Activity Requirements

Each resident is required to complete at least one scholarly project during their training. This may include original research, quality improvement projects, case reports, or literature reviews. Presentation at conferences and publication in medical journals are

encouraged.

Application Process and Eligibility

The application process for the Mayo Jacksonville Family Medicine Residency is competitive and follows the National Resident Matching Program (NRMP) guidelines. Prospective applicants must meet specific eligibility criteria and submit required documentation.

Eligibility Criteria

Applicants must have graduated from an accredited medical school and be eligible for medical licensure in Florida. Both U.S. and international medical graduates are welcome to apply, provided they meet visa and licensing requirements.

Application Components

The application includes:

- ERAS application form
- Personal statement
- Curriculum vitae (CV)
- Three letters of recommendation
- USMLE or COMLEX scores
- Medical school transcripts

Interviews are conducted with selected candidates to assess clinical aptitude, professionalism, and alignment with the program's values.

Resident Life and Support

Resident well-being and work-life balance are priorities within the Mayo Jacksonville Family Medicine Residency. The program offers numerous resources and a supportive community to foster a positive training environment.

Work-Life Balance

The residency incorporates reasonable work hours, scheduled time off, and wellness

initiatives to reduce burnout. Residents have access to counseling services, fitness facilities, and social events to promote mental and physical health.

Community Engagement

Residents are encouraged to participate in community outreach programs and volunteer activities. These experiences enhance cultural competency and strengthen ties with the local population.

Housing and Relocation Assistance

The program provides guidance on housing options and relocation logistics to assist incoming residents in transitioning smoothly to Jacksonville. Resources include information on neighborhoods, transportation, and local amenities.
