Program Overview and Mission

The McLaren Port Huron Family Medicine Residency program is committed to training competent, compassionate, and well-rounded family physicians. The program's mission focuses on delivering exceptional clinical education through a patient-centered approach while addressing the healthcare needs of the community. Residents are trained to manage a wide spectrum of medical conditions across all age groups, emphasizing preventive care, chronic disease management, and health promotion.

Located in Port Huron, Michigan, the residency benefits from affiliation with McLaren Health Care, providing access to a comprehensive healthcare system with advanced resources and diverse patient populations. The program fosters an environment that encourages lifelong learning, professional growth, and

ethical medical practice, preparing graduates for successful careers in family medicine.

Curriculum and Training Structure

The curriculum of the McLaren Port Huron Family Medicine Residency is thoughtfully designed to balance didactic learning with hands-on clinical experience. The three-year program follows ACGME accreditation standards, ensuring residents receive training that meets national requirements for family medicine education.

Didactic Sessions and Conferences

Residents participate in weekly didactic sessions covering core topics such as ambulatory care, inpatient medicine, pediatrics, obstetrics, geriatrics, and behavioral health. These sessions include lectures, case discussions, journal clubs, and simulation exercises to enhance clinical reasoning and decision-making skills.

Skills Development

The program emphasizes procedural skills essential to family medicine, including joint injections, skin biopsies, wound care, and basic obstetric procedures. Residents receive supervised training to build competence and confidence in performing these interventions safely.

Clinical Rotations and Patient Care Experience

Clinical training is a cornerstone of the McLaren Port Huron Family Medicine Residency, offering exposure to a broad range of patient care settings. Residents rotate through inpatient, outpatient, emergency, and specialty clinics to develop comprehensive clinical expertise.

Core Rotations

Core rotations include family medicine continuity clinics, internal medicine, pediatrics, obstetrics and gynecology, emergency medicine, psychiatry, and geriatrics. Each rotation is structured to provide progressive responsibility and supervised patient management.

Community-Based Experience

The program places strong emphasis on community health, allowing residents to work in underserved areas and collaborate with public health organizations. This experience reinforces the importance of social determinants of health and culturally competent care.

- Family Medicine Continuity Clinic
- Inpatient Medicine Service
- Pediatric and Adolescent Care
- Obstetrics and Women's Health
- Behavioral Health Integration
- Geriatric Medicine

Faculty and Teaching Environment

The McLaren Port Huron Family Medicine Residency boasts a dedicated faculty team comprised of experienced family physicians, specialists, and healthcare professionals committed to resident education. Faculty members serve as mentors, educators, and role models, fostering a supportive and collaborative learning environment.

Teaching methods include bedside instruction, clinical supervision, and personalized feedback. The faculty's commitment to academic excellence and resident well-being contributes significantly to the program's success in producing skilled family medicine practitioners.

Research and Scholarly Activities

Residents in the McLaren Port Huron Family Medicine Residency are encouraged to engage in research and quality improvement projects. The program supports scholarly activity to enhance critical thinking, evidence-based practice, and academic development.

Opportunities include participation in clinical research studies, presentations at regional conferences, and involvement in community health initiatives. Research mentorship is available to guide residents through project design, implementation, and dissemination of findings.

Application Process and Eligibility

Prospective applicants to the McLaren Port Huron Family Medicine Residency should meet the eligibility criteria established by the Accreditation Council for Graduate Medical Education (ACGME). Applicants must have graduated from an accredited medical school and be eligible for medical licensure in the state of Michigan.

Application Requirements

The application process typically involves submission through the Electronic Residency Application Service (ERAS), including the following components:

- Medical school transcripts
- USMLE or COMLEX scores
- Letters of recommendation
- Personal statement outlining career goals
- Curriculum vitae (CV)

Interview Process

Selected candidates are invited for interviews to assess their qualifications, interpersonal skills, and alignment with the program's values. Interviews provide an opportunity for applicants to learn more about the residency and meet faculty and current residents.

Benefits and Resident Life

The McLaren Port Huron Family Medicine Residency offers competitive benefits including health insurance, paid vacation, and educational allowances. Residents benefit from a collegial atmosphere that promotes work-life balance and professional satisfaction.

Life in Port Huron provides a welcoming community with access to outdoor activities, cultural events, and family-friendly amenities. Residents enjoy support services such as wellness programs, career counseling, and opportunities for leadership development within the residency program.

- Comprehensive Health Coverage
- Paid Time Off and Holidays
- Access to Continuing Medical Education (CME)
- Resident Wellness Programs
- Mentorship and Career Guidance
