Key Ingredients and Their Skin Benefits

The success of Polite Society More Than a Pretty Face Skin Caring Foundation lies in its thoughtfully selected ingredients that prioritize skin health alongside cosmetic performance. Each component plays a vital role in enhancing skin condition while providing coverage.

Hydrating Agents

Moisturizing ingredients such as hyaluronic acid and glycerin are incorporated to maintain skin hydration throughout the day. Antioxidants and Soothing Extracts

To protect the skin from environmental stressors, the foundation includes antioxidants like vitamin E and green tea extract. These components help neutralize free radicals, reduce inflammation, and promote skin repair. Additionally, calming agents such as aloe vera and chamomile extract provide soothing effects, minimizing irritation and redness often triggered by makeup application.

Sun Protection and Barrier Support

Polite Society's foundation offers broad-spectrum SPF protection, shielding the skin from harmful UVA and UVB rays. This feature is crucial in preventing premature aging and pigmentation caused by sun exposure. Moreover, barrier-supporting ingredients like ceramides and niacinamide strengthen the skin's natural defenses, improving resilience and texture over time.
