Overview of Premium Economy on Austrian Airlines

Austrian Airlines' premium economy cabin is a relatively recent addition to its fleet, introduced to enhance passenger comfort on long-haul flights. Positioned between economy and business class, premium economy offers a blend of affordability and luxury. This cabin class caters to travelers who desire more space, better service, and elevated amenities without paying the premium business class fare. The airline operates this service primarily on intercontinental routes, ensuring that passengers enjoy a relaxed and enjoyable journey across continents.

Purpose and Target Audience

The premium economy class of Austrian Airlines is targeted at both leisure travelers seeking a more comfortable flight and business travelers who may not require full business class services but want an upgrade from economy. It appeals to those who value additional personal space, enhanced dining options, and priority services while remaining budget-conscious.

Aircraft Featuring Premium Economy

Premium economy seating is available on Austrian Airlines' long-haul aircraft, including the Boeing

777 and the Boeing 787 Dreamliner. These modern aircraft are equipped to provide an optimal premium economy environment with state-of-the-art seating and cabin features designed for passenger comfort.

Seating and Comfort

One of the most significant advantages of flying premium economy with Austrian Airlines is the improved seating arrangement. Compared to standard economy, premium economy offers wider seats, increased legroom, and greater recline, which significantly enhance comfort, especially on longer flights.

Seat Dimensions and Configuration

The premium economy seats on Austrian Airlines typically measure around 19 inches in width, which is wider than economy class seats. Legroom is increased, with a seat pitch often ranging from 38 to 40 inches, allowing passengers to stretch out more comfortably. The seating configuration usually follows a 2-3-2 layout on wide-body aircraft, providing easier aisle access and a more spacious feel.

Additional Comfort Features

Seats in premium economy are equipped with adjustable headrests, footrests, and enhanced cushioning. Passengers also benefit from more storage space for personal items and power outlets for charging electronic devices. The cabin ambiance is designed to be quieter and more relaxing, contributing to a better overall travel experience.

In-Flight Services and Amenities

Austrian Airlines enhances the premium economy experience with a range of in-flight services that surpass those found in economy class. These benefits focus on elevating passenger convenience, entertainment, and dining quality.

Dining Experience

Passengers in premium economy enjoy a higher standard of meal service. Austrian Airlines provides a separate menu featuring gourmet dishes prepared with fresh ingredients. Meals are served on real china with metal cutlery, and passengers have access to a selection of complimentary beverages, including wines and spirits, which are not typically available in economy class.

Entertainment and Connectivity

The premium economy cabin offers larger personal entertainment screens with an extensive selection of movies, TV shows, music, and games. Noise-canceling headphones may also be provided to enhance the viewing and listening experience. Some aircraft are equipped with Wi-Fi services,

allowing passengers to stay connected during the flight at an additional cost.

Additional Amenities

Passengers receive amenity kits containing travel essentials such as eye masks, earplugs, and skincare products. Enhanced blankets and pillows are provided to ensure restful sleep. Furthermore, priority boarding and dedicated cabin crew attention contribute to a smoother and more personalized service.

Baggage Allowance and Policies

Baggage policies for premium economy passengers on Austrian Airlines are more generous compared to standard economy, offering increased checked baggage allowances and priority handling.

Checked and Carry-On Baggage

Typically, premium economy passengers are entitled to two checked bags, each weighing up to 23 kilograms (50 pounds), depending on the route. Carry-on allowances also tend to be more flexible, with an additional personal item permitted alongside the standard cabin bag. These allowances provide convenience for travelers carrying more luggage without incurring extra fees.

Priority Baggage Handling

One of the benefits of premium economy is priority baggage handling, which ensures that checked luggage is among the first to be delivered at baggage claim. This feature reduces waiting times and enhances the overall travel experience, especially upon arrival in busy airports.

Booking and Upgrade Options

Securing a seat in premium economy on Austrian Airlines can be done through various booking channels, with multiple opportunities to upgrade from economy or business class depending on availability and fare rules.

Booking Process

Passengers can book premium economy tickets directly through Austrian Airlines' official website, travel agencies, or online travel platforms. It is advisable to book early to secure preferred seats and take advantage of promotional fares. Premium economy fares often include flexible conditions compared to economy tickets.

Upgrade Opportunities

Existing economy passengers may upgrade to premium economy using Austrian Airlines' frequent flyer miles or by paying an additional fee. Upgrades are subject to availability and can be done during booking, at check-in, or at the airport. Business class passengers occasionally downgrade to premium economy to reduce travel costs while retaining enhanced comfort.

Frequent Flyer Benefits

Members of Austrian Airlines' Miles & More program can earn and redeem miles when flying premium economy. The class offers a higher mileage accrual rate than economy, rewarding loyal customers with faster points accumulation and access to exclusive benefits.

Comparing Premium Economy to Other Classes

Understanding how premium economy on Austrian Airlines compares to economy and business class helps travelers choose the best option for their needs and budget.

Premium Economy vs. Economy

The key differences include increased seat size and legroom, enhanced meal service, priority boarding, and additional baggage allowances. Premium economy passengers enjoy a more relaxed cabin environment and improved amenities, making it an excellent choice for those seeking extra comfort without the high cost of business class.

Premium Economy vs. Business Class

While business class offers lie-flat seats, lounge access, and a wider range of luxury services, premium economy provides many comfort upgrades at a fraction of the price. It lacks some of the exclusive perks of business class but remains a superior option to standard economy, balancing cost and comfort effectively.

When to Choose Premium Economy

Passengers should consider premium economy when they want a more comfortable flight experience without the expense of business class. It is particularly suitable for medium to long-haul flights where extra space and amenities significantly impact passenger well-being.

- Wider seats and more legroom than economy
- Enhanced meal service with complimentary beverages
- Priority boarding and baggage handling

- Access to upgraded entertainment systems
- Increased baggage allowance
- Eligibility for frequent flyer miles and upgrades

Frequently Asked Questions

What amenities are offered in Austrian Airlines Premium Economy class?

Austrian Airlines Premium Economy offers extra legroom, wider seats, enhanced dining options, priority boarding, increased baggage allowance, and access to dedicated cabin crew for a more comfortable flight experience.

How does Austrian Airlines Premium Economy differ from Economy class?

Premium Economy on Austrian Airlines provides more spacious seating with greater recline, upgraded meal service, additional baggage allowance, priority check-in and boarding, as well as enhanced in-flight entertainment compared to standard Economy class.

Can I upgrade to Premium Economy on Austrian Airlines after booking an Economy ticket?

Yes, Austrian Airlines allows passengers to upgrade to Premium Economy after booking, subject to availability. Upgrades can be requested online via the airline's website or at the airport check-in counter for an additional fee.

Is Austrian Airlines Premium Economy available on all flights?

Premium Economy is available on most long-haul flights operated by Austrian Airlines, particularly on intercontinental routes. However, availability may vary depending on the aircraft type and route, so it is best to check during booking.

What is the baggage allowance for Premium Economy passengers on Austrian Airlines?

Passengers traveling in Austrian Airlines Premium Economy are typically allowed two checked bags, each weighing up to 23 kg (50 lbs), which is more than the single bag allowance in Economy class. Carry-on baggage allowances remain the same as Economy.
