Premium economy on ITA Airways to Rome is available primarily on long-haul flights operated by modern aircraft such as the Airbus A330 and A350. These aircraft are equipped with dedicated premium economy cabins that offer a distinct space separate from economy and business classes. The service is commonly offered on transatlantic flights from major

U.S. gateways to Rome's Leonardo da Vinci-Fiumicino Airport (FCO). Availability may vary seasonally, and it is advisable to check ITA Airways' schedule and fleet details when booking.

The hallmark of premium economy on ITA to Rome is enhanced seating designed to improve passenger comfort during the approximately 8 to 10-hour transatlantic flight. ITA Airways places emphasis on ergonomic design, space, and privacy within this cabin class.
