## Overview of Presence Saints Mary and Elizabeth Medical Center Behavioral Health

Presence Saints Mary and Elizabeth Medical Center Behavioral Health is a key component of the larger healthcare system, focused on addressing mental health and behavioral challenges through comprehensive clinical services. The center emphasizes a patient-centered approach, ensuring individualized treatment plans that consider each person's unique needs. The facility is equipped with modern resources and technology to support assessments, diagnoses, and therapeutic interventions. With a reputation for compassionate care, the medical center integrates psychiatric, psychological, and social services to foster holistic recovery for patients. Its location and accessibility make it a pivotal resource for the community, delivering both crisis stabilization and long-term mental health management.

# **Behavioral Health Services Offered**

The behavioral health division at Presence Saints Mary and Elizabeth Medical Center offers an extensive range of services designed to treat various mental health conditions. These services are tailored to meet the needs of diverse populations, including adolescents, adults, and seniors. The center focuses on delivering evidence-based therapies and medication management to ensure effective treatment outcomes.

## **Inpatient Behavioral Health Services**

Inpatient care is provided for individuals requiring intensive psychiatric treatment and monitoring. The inpatient unit offers a safe and structured environment where patients receive 24-hour supervision from trained healthcare professionals. This level of care is essential for those experiencing severe mental health crises or acute episodes that necessitate hospitalization.

## **Outpatient Behavioral Health Services**

Outpatient programs allow patients to receive ongoing therapy and support while maintaining their daily routines. These services include individual counseling, group therapy, and psychiatric evaluations. The outpatient model promotes recovery through flexible scheduling and personalized care plans.

## **Crisis Intervention and Emergency Services**

Presence Saints Mary and Elizabeth Medical Center Behavioral Health provides emergency psychiatric services for individuals in immediate distress. Crisis intervention teams are trained to stabilize patients, conduct assessments, and determine appropriate next steps for care, including possible hospitalization or outpatient follow-up.

## **Specialized Treatment Programs**

The medical center offers several specialized programs that address specific behavioral health disorders and unique patient needs. These programs are staffed by clinicians with expertise in targeted treatment modalities.

## **Substance Use Disorder Treatment**

This program focuses on the assessment, detoxification, and rehabilitation for individuals struggling with addiction. The center utilizes a combination of medication-assisted treatment (MAT), counseling, and support groups to promote lasting recovery.

## **Child and Adolescent Behavioral Health**

Dedicated services for younger patients address developmental, emotional, and behavioral issues. The program includes play therapy, family counseling, and educational support to foster healthy growth and coping skills.

## **Geriatric Behavioral Health Services**

Older adults receive specialized care for mental health disorders prevalent in aging populations, such as depression, anxiety, and dementia-related conditions. Treatment plans incorporate medical management and psychosocial support tailored to seniors.

## **Professional Staff and Expertise**

Presence Saints Mary and Elizabeth Medical Center Behavioral Health is staffed by a multidisciplinary team of mental health professionals committed to delivering high-quality care. The team includes psychiatrists, psychologists, licensed therapists, social workers, and psychiatric nurses.

## **Psychiatrists and Medical Providers**

Psychiatrists at the center provide psychiatric evaluations, medication management, and oversee clinical treatment plans. Their expertise is crucial for diagnosing complex mental health conditions and prescribing appropriate pharmacological therapies.

## **Therapists and Counselors**

Licensed therapists and counselors utilize evidence-based psychotherapies such as cognitive-behavioral therapy (CBT), dialectical behavior therapy (DBT), and trauma-informed care. These professionals work closely with patients to develop coping strategies and emotional regulation skills.

## **Support Staff and Case Management**

Case managers and support personnel coordinate care, facilitate communication between providers, and assist patients with accessing community resources. This team ensures continuity of care and supports patients throughout their treatment journey.

## **Patient Resources and Support**

To enhance the patient experience and promote sustained mental wellness, Presence Saints Mary and Elizabeth Medical Center Behavioral Health offers various resources and support services.

- Comprehensive assessment and individualized treatment planning

- Patient and family education programs
- Support groups for mental health and substance use recovery
- Aftercare planning and relapse prevention strategies
- Access to community-based mental health services and referrals

These resources are designed to empower patients and their families, providing knowledge and tools to manage mental health challenges effectively beyond the clinical setting.

## **Community Engagement and Mental Health Education**

Presence Saints Mary and Elizabeth Medical Center Behavioral Health actively participates in community outreach and education to raise awareness about mental health issues. The center organizes workshops, seminars, and screening events aimed at early identification and intervention for behavioral health concerns.

## **Mental Health Awareness Initiatives**

These initiatives focus on reducing stigma associated with mental illness and encouraging individuals to seek help promptly. By collaborating with local organizations and schools, the center promotes mental health literacy and resilience.

## **Training and Professional Development**

The medical center provides ongoing training for healthcare professionals and community members to enhance skills in mental health assessment and crisis response. This commitment ensures that the highest standards of care are maintained within the community.
