Program Overview

The Prevea Eau Claire Family Medicine Residency is a fully accredited graduate medical education program focused on training physicians in comprehensive family medicine. Established to address the healthcare needs of the Eau Claire region and beyond, the program emphasizes patient-centered care, preventive medicine, and chronic disease management. Residents are exposed to a wide spectrum of medical conditions across all age groups, fostering well-rounded clinical expertise. The residency is affiliated with Prevea Health, a leading healthcare system in Wisconsin, providing residents with access to extensive clinical resources and multidisciplinary teams.

Mission and Vision

The mission of the Prevea Eau Claire Family Medicine Residency is to train compassionate, knowledgeable, and skilled family physicians who are equipped to serve diverse communities. The program envisions producing leaders in family medicine who contribute to advancing healthcare quality and accessibility. Core values include professionalism, lifelong learning, and community service.

Program Structure

The residency spans three years and incorporates rotations in outpatient clinics, hospital settings, emergency medicine, pediatrics, obstetrics, behavioral health, and geriatrics. This structure ensures that residents gain a comprehensive understanding of family medicine's scope and depth. The program also integrates didactic sessions, case conferences, and simulation training to enhance clinical decision-making and procedural skills.

Curriculum and Training

The curriculum of the Prevea Eau Claire Family Medicine Residency is designed to balance clinical practice with academic learning, ensuring residents develop expertise in diagnosing and managing a broad range of conditions. Training emphasizes evidence-based medicine, patient communication, and collaborative care.

Core Clinical Rotations

Residents participate in a variety of core rotations including:

- Family Medicine Outpatient Clinics
- Inpatient Medicine
- Pediatrics
- Obstetrics and Gynecology
- Emergency Medicine
- Behavioral Health
- Geriatrics

- Procedural Skills Development

These rotations provide hands-on experience with diverse patient populations and medical conditions, fostering clinical confidence and competence.

Didactic Education

The residency offers weekly didactic sessions covering topics such as pharmacology, pathology, preventive care, and practice management. Additionally, residents engage in journal clubs, morbidity and mortality conferences, and quality improvement projects. This comprehensive educational approach supports continuous knowledge enhancement and critical thinking.

Faculty and Mentorship

The program is supported by a dedicated team of experienced faculty members who serve as educators, mentors, and clinical supervisors. Faculty expertise spans various subspecialties within family medicine, contributing to a rich educational environment.

Faculty Qualifications

Prevea Eau Claire Family Medicine Residency faculty members are board-certified family physicians with extensive clinical and teaching experience. Many have academic appointments and participate in ongoing professional development to stay current with medical advances.

Mentorship and Resident Support

Mentorship is a cornerstone of the residency experience, with faculty providing personalized guidance on clinical skills, career planning, and research endeavors. Regular evaluations and feedback sessions ensure residents receive constructive input to foster growth and professional development.

Research and Scholarly Activities

The Prevea Eau Claire Family Medicine Residency encourages resident involvement in research and quality improvement projects. Scholarly activities are integral to the program's mission to advance family medicine knowledge and improve patient outcomes.

Research Opportunities

Residents have access to resources for conducting clinical or community-based research, often collaborating with faculty mentors. Topics frequently explore chronic disease management, preventive care strategies, and healthcare delivery innovations.

Quality Improvement Initiatives

Participation in quality improvement projects allows residents to apply evidence-based strategies to real-world clinical practice, enhancing patient safety and care efficiency. These initiatives foster a culture of continuous improvement within the residency and affiliated healthcare facilities.

Application Process and Requirements

The Prevea Eau Claire Family Medicine Residency follows a competitive application process aligned with national residency matching programs. Prospective applicants should meet specific educational and professional criteria.

Eligibility Criteria

Applicants must have graduated from an accredited medical school and possess valid medical licensure or eligibility. U.S. citizenship or appropriate visa status is required. The program values diverse backgrounds and encourages applications from candidates committed to family medicine.

Application Components

The application package typically includes:

- Curriculum Vitae (CV)
- Personal Statement
- Letters of Recommendation
- Medical School Transcripts
- USMLE or COMLEX Scores

Interviews are conducted to assess candidates' clinical aptitude, communication skills, and alignment with the program's values.

Community Engagement and Patient Care

The Prevea Eau Claire Family Medicine Residency is deeply integrated into the local community, emphasizing the importance of culturally competent and accessible healthcare. Residents serve diverse patient populations, including underserved groups, through various clinical settings.

Community-Based Clinics

Residents provide care in community health centers and outreach programs, gaining experience in addressing social determinants of health and promoting preventive care. This exposure enhances their ability to deliver holistic and patient-centered medicine.

Interprofessional Collaboration

Effective teamwork with nurses, social workers, pharmacists, and other healthcare professionals is a key component of the residency. Collaborative practice models improve patient outcomes and prepare residents for modern healthcare environments.

Career Development and Alumni Success

The program places strong emphasis on preparing residents for successful careers in family medicine, whether in private practice, academic medicine, or healthcare leadership roles. Career development resources and networking opportunities are integral to resident training.

Career Support Services

Residents receive guidance on job placement, fellowship opportunities, and board certification preparation. Workshops and seminars on practice management and professional development further equip graduates for diverse career paths.

Notable Alumni

Graduates of the Prevea Eau Claire Family Medicine Residency have gone on to excel in various healthcare settings across the country. Alumni often maintain connections with the program, contributing

to mentorship and ongoing educational activities.
