The word *principessa* is derived from the Latin *princeps*, meaning "first" or "chief," reflecting the high social status associated with royalty.

In Italian, nouns have gender, and *principessa* specifically denotes the feminine form, while the masculine equivalent is *principe*, meaning "prince." The plural of *principessa* is *principesse*, used when referring to multiple princesses.

Grammatical Gender and Agreement

Italian grammar requires that adjectives and articles agree in gender and number with the noun they modify. For example, when referring to "the princess," the phrase is *la principessa*, where *la* is the feminine singular definite article. Similarly, "a princess" translates as *una principessa*. Understanding these agreements is crucial for correct sentence construction in Italian.
