Overview of Sutter Physical Therapy Davis

Sutter Physical Therapy Davis is part of the broader Sutter Health network, providing specialized outpatient physical therapy services tailored to meet individual patient needs. Located in Davis, California, this clinic focuses on delivering quality care through evidence-based practices. The center caters to a wide range of patients, including those recovering from surgery, managing chronic conditions, or seeking injury prevention strategies. Its reputation is built on effective treatment outcomes, professional expertise, and a commitment to holistic patient wellness.

Services Offered

The range of services at Sutter Physical Therapy Davis is extensive, designed to address various musculoskeletal and neurological conditions. The clinic offers personalized rehabilitation programs that target pain relief, mobility improvement, and strength restoration. Services are adaptable for different age groups and activity levels, ensuring comprehensive care for each patient.

Orthopedic Rehabilitation

This service focuses on recovery from injuries related to bones, joints, muscles, ligaments, and tendons. Patients recovering from fractures, sprains, or orthopedic surgeries benefit from tailored exercise regimens and manual therapy techniques aimed at restoring function and reducing pain.

Neurological Physical Therapy

Sutter Physical Therapy Davis provides specialized care for patients with neurological impairments such as stroke, Parkinson's disease, multiple sclerosis, and spinal cord injuries. Therapists utilize neuroplasticity principles to enhance motor function and improve quality of life.

Sports Injury Rehabilitation

The clinic supports athletes of all levels by addressing sports-related injuries through targeted strength training, flexibility exercises, and injury prevention education. This service helps patients return to their sport safely and efficiently.

Pain Management

Chronic pain conditions such as arthritis, fibromyalgia, and back pain are managed through multidisciplinary approaches involving therapeutic exercises, manual therapy, and patient education.

Post-Surgical Rehabilitation

Post-operative patients receive customized rehabilitation plans to accelerate healing, regain mobility, and prevent complications following surgeries such as joint replacements or ligament repairs.

Experienced Team and Expertise

The clinical staff at Sutter Physical Therapy Davis consists of highly trained physical therapists, each licensed and experienced in various specialties. Their expertise spans orthopedic, neurological, pediatric, and geriatric physical therapy. Continuous professional development ensures the team stays current with the latest rehabilitation techniques and evidence-based protocols.

Licensed Physical Therapists

All therapists hold advanced degrees and state licenses, ensuring adherence to professional standards and quality care delivery. They conduct comprehensive assessments to develop individualized treatment plans that address patient goals and clinical findings.

Support Staff

In addition to therapists, the clinic employs support personnel who assist with patient scheduling, insurance processing, and administrative tasks, contributing to a smooth and efficient patient experience.

Patient-Centered Treatment Approach

Sutter Physical Therapy Davis emphasizes a patient-centered model of care, prioritizing individualized treatment and active patient involvement. Therapists collaborate closely with patients to set realistic goals and adapt therapies based on ongoing progress and feedback.

Comprehensive Evaluation

Initial patient evaluations include a detailed medical history review, physical examination, and functional assessments. This thorough approach enables precise identification of impairments and informs the development of targeted interventions.

Customized Therapy Plans

Therapy programs are tailored to each patient's unique needs, incorporating manual therapy, therapeutic exercises, neuromuscular re-education, and modalities such as ultrasound or electrical stimulation when appropriate.

Patient Education and Empowerment

Educating patients about their conditions and self-management techniques is integral to the treatment process, promoting long-term health and preventing future injuries.

Facilities and Technology

The Sutter Physical Therapy Davis clinic is equipped with modern facilities and advanced rehabilitation technology to support effective treatment. The environment is designed to be welcoming and accessible, ensuring patient comfort and safety.

State-of-the-Art Equipment

Therapeutic equipment includes resistance training machines, balance and coordination tools, gait training apparatus, and modalities such as TENS and therapeutic ultrasound. This technology enhances treatment precision and accelerates recovery.

Accessible Treatment Spaces

The clinic features spacious treatment rooms that accommodate a variety of therapeutic activities, ensuring privacy and space for movement-based therapies.

Insurance and Appointment Information

Sutter Physical Therapy Davis accepts a broad range of insurance plans, facilitating access to care for many patients. The administrative team assists with verifying coverage and managing claims to reduce patient burden.

Insurance Plans Accepted

- Medicare and Medicaid
- Major private health insurance providers
- Worker's compensation and auto injury claims
- Self-pay options available

Scheduling and Appointments

Appointments can be made via phone or through the Sutter Health patient portal. The clinic offers flexible scheduling options, including early morning and late afternoon slots, to accommodate patient availability.

Community Engagement and Patient Resources

Sutter Physical Therapy Davis is actively involved in the local community, promoting health education and wellness initiatives. The clinic provides resources aimed at injury prevention and overall physical health maintenance.

Workshops and Educational Programs

Regular workshops on topics such as ergonomics, injury prevention, and chronic pain management are offered to patients and the public, enhancing community health literacy.

Patient Support Materials

Informational brochures, exercise guides, and online resources are provided to support patients outside of therapy sessions, encouraging adherence to prescribed home exercise programs and lifestyle modifications.
