Understanding the TACHS Exam

The TACHS exam is designed to assess the academic abilities of eighth-grade students seeking admission to Catholic high schools. It evaluates skills in reading, language arts, mathematics, and reasoning. The test typically consists of multiple-choice questions and is administered over a single

day, lasting approximately three hours. Understanding the exam's format and content is critical for effective preparation.

Exam Structure and Sections

The TACHS exam is divided into several key sections: Reading Comprehension, Language Arts, Mathematics, and Ability (Reasoning). Each section assesses different skill sets:

- **Reading Comprehension:** Passages followed by questions that test understanding and inference.
- **Language Arts:** Grammar, vocabulary, sentence structure, and editing skills.
- **Mathematics:** Basic arithmetic, algebra, geometry, and problem-solving skills.

Familiarity with these sections allows students to tailor their practice and focus on weaker areas.
