Types of Taxes Covered in iCivics

iCivics covers a broad spectrum of taxes to provide learners with a well-rounded understanding of how different taxation systems function. The lessons explore how various taxes impact citizens and government operations differently, illustrating the diversity of tax structures in the United States.

Income Tax

One of the primary focuses is on income tax, which is levied on individuals and businesses based on earnings. iCivics explains progressive taxation systems, tax brackets, deductions, and credits that influence the amount of tax owed. This section helps students grasp how income tax contributes to federal and state revenues.

Sales and Property Taxes

Sales tax, applied to the purchase of goods and services, and property tax, based on property ownership, are also examined. iCivics illustrates how these taxes generate local government funding for schools, public safety, and infrastructure.

Payroll and Other Taxes

Payroll taxes, which fund Social Security and Medicare, are discussed to show the relationship between taxation and social welfare programs. Additional topics include excise taxes and tariffs, highlighting the complexity of the tax system.
