Types of Home Loans Offered

Wings financial home loans encompass a variety of mortgage products to meet diverse borrower needs. From first-time homebuyer programs to refinancing options, Wings Financial provides flexible solutions suitable for various financial goals and property types.

Fixed-Rate Mortgages

Fixed-rate mortgages are a popular choice among borrowers who prefer predictable monthly payments. Wings Financial offers fixed-rate home loans with terms typically ranging from 10 to 30 years. These loans maintain the same interest rate throughout the term, protecting borrowers from market fluctuations and enabling easier budgeting.

Adjustable-Rate Mortgages (ARMs)

Adjustable-rate mortgages provide lower initial interest rates compared to fixed-rate loans, making them attractive for certain buyers. Wings Financial's ARMs usually feature a fixed rate for an initial period, followed by periodic adjustments based on market indexes. This option suits borrowers planning to sell or refinance before the adjustable period begins.

FHA and VA Loans

To assist eligible borrowers, Wings Financial offers government-backed loans such as FHA and VA mortgages. FHA loans require lower down payments and are ideal for first-time homebuyers or those with less-than-perfect credit. VA loans provide veterans and active military personnel with favorable terms, including no down payment and competitive interest rates.

Refinance Options

Existing homeowners can benefit from Wings Financial's refinancing products, which aim to reduce monthly payments, shorten loan terms, or tap into home equity. Cash-out refinancing is also available for those seeking to fund major expenses or consolidate debt.
